# Our ESL in the Leroy Merlin Stores in France

## PROJECT HIGHLIGHTS

- Customer reviews on the ESL
- NFC redirection to product details
- Chat with an advisor
- Product geolocation integrated in the APP
- LED Flashing to help customers find products

By integrating ESLs into a mobile application, French retailer Leroy Merlin **enables customers to efficiently navigate their extensive product range**. Since deployment, one in four visitors—over one million users—has used the app for guidance. Integrated with their client app, Leroy Merlin saves high amount of service costs per store per year with accurate item finding without the need for extra labor costs.
